You Own, We Manage.

Want to own your vehicle or fleet, but vehicle & fleet management isn't your expertise? This option means we do all of the specialised management - allowing you to spend your time in your business in more productive areas.

The key benefits of this solution:

Do you pay retail rates from your current service providers and want to reduce these costs? Need a consolidated approach with a sustainable plan? Our Telematic reporting will help manage Health & Safety, providing insights on what your vehicles are doing & when. Our team will share reports showing vehicle/fleet optimisation and when to consider transitioning to EV, PHEV or hybrid options.

Our complete fleet management includes booking & notification of all repairs, maintenance, tyre management, road user charges, registrations, breakdowns, accident repairs, free fuel cards including management of expenses with no fees, toll charges & infringement management. So your team spends time on your business.

- ▶ **Free installation and no upfront fees**, one simple monthly cost on a per vehicle per month basis.
- ▶ **Initial term of 24 months** with easy cost effective terminations, changing vehicles – no problem, we'll swap it over free of charge.
- ▶ 24/7/365 assistance from our local fleet experts via our 0800 free calling number
- ▶ Mitigate your health and safety obligations
- ▶ Full access to our Yoogo Fleet Telematics portal giving you full functionality, automated reporting real time alerts, geo-fencing capability with oversight of your fleet analytics.
- ▶ **Looking for sustainable options.** If your future is Green or you are looking to reduce your carbon footprint and are wondering how to transition some or all of your fleet to EVs or other Green Fleet options with guidance and modelling then Yoogo's fleet experts are good to go on all the options.

“

The Cutshop Group has been using Yoogo Fleet for the past 7 years and we have only positive feedback to give. It has been one of the best business decisions we have made as they take care of everything for us, when it comes to our fleet.
